WHY WE DRIVE

OUR PURPOSE

Life is precious. We help people make the most of it.

OUR VISION

Enriching people's lives through world-class, value-added products and services.

OUR MISSION

The mission of Intimidator, Inc. is to make life better by providing innovative products and services at a superior value, while being good stewards of our people, community, and environment.

We are a faith-based company, and our goal is to have a positive impact on our community as we live out our values.

BUILT IN
PREMIUM COMPONENTS

8 PLY RADIAL TIRES

The 8 ply radial all-terrain tires offer an extremely durable and long lasting tire. The radial is an upgrade from the bias ply tires that come standard on most UTVs due to the construction and performance of the tire.

\$800 ADDED VALUE (On Select Models - Stage 2 & 3)

STEEL SKID PLATES

Protect the underside of your UTV against brush, rocks, and mud with the standard steel skid plates on all Intimidator models. Most companies provide a plastic version or no skid plate at all. We include it standard, saving you time, money, and frustration.

\$700 ADDED VALUE

FRAME & SUSPENSION

These heavy duty rails, roll cage, a-arms, and other features make your UTV extremely durable, not only putting your mind at ease but preventing costly repairs down the road. These long lasting parts help keep occupants safe in the event of an accident.

\$250 VALUE FOR KIT + INSTALL

GC1K SEATS

Comfortable rides are a must have in any vehicle and UTVs are no exception. Many UTV competitors use flat bench seats, which are hard and uncomfortable. All Intimidator GC1K UTVs feature plush seating with bolster contouring. This feature provides comfort and luxury for any trail ride, no matter the ride time.

\$750 ADDED VALUE

COLOR DISPLAY

The color display gives the rider a similar experience to what is seen in automobiles. Eye strain is limited due to the contrasting colors and easy to read vehicle information. Monochrome gauges are standard in most UTVs which is a grey background with black icons.

\$250 VALUE FOR STAGE 1 & 2 **\$1,000** VALUE FOR STAGES 3

*GC1K Stage 2
Shown with optional accessories and upgrades

ENGINE POWERED BY TGB

Intimidator UTV and TGB Engine Company have joined forces to bring you one of the most powerful UTVs on the market! The TGB 1000 V-Twin Engine leads the class with 83 horses, 67 pounds of torque, and speeds up to 65 MPH. This engine is a BEAST!

\$1,000 ADDED VALUE

CVT (Continuously Variable Transmission)

The CVTs in Intimidator UTVs have been manufactured and tuned in such a way that eliminates the concern about prematurely breaking or wearing out belts. We put premium CVTs in our units to maximize belt life and performance so our customers don't have to spend time and money replacing belts.

\$500 ADDED VALUE

REAR DIFFERENTIAL

By incorporating an oversized rear differential with a push button locking feature, performance is greatly enhanced. A user can operate the vehicle in their yard without tearing up the grass with turf mode engaged, or can lock the rear differential for use in mud or loose terrain for maximum traction and fun!

\$250 ADDED VALUE

GC1K HALF DOORS

The GC1K comes standard with rotomolded half doors while most UTVs come with nets. The nets make the unit difficult to get in and out of and do not provide the same amount of protection as doors do.

\$829 ADDED VALUE

ROTOMOLDED PLASTICS

Our rotomolded plastics have an internal support structure creating a more rugged plastic. This durable feature allows for less worry about damage because it can take the impact that's thrown at it. The plastic is also non-painted and dyed all the way through. This prevents peeling, flaking, or fading.

\$500 ADDED VALUE

POWERED BY TGB

TGB Engines offer the best performance available on the UTV market. Available in our GC1K models, the 1000 TGB engine gives our UTVs the boost they need to perform at peak output. The information below shows all the optimal features of the TGB engines. You can rest assured that TGB engines will provide the best performance and service that meet all your demands. Get in an Intimidator UTV and see what the hype is all about with the TGB engines.

// 83HP - Class-Leading

// 67lb/ft Torque

// Speeds up to 65mph

// 4-Stroke, V-Twin, 2-Cylinder SOHC

// 10.2 Compression Ratio

// Liquid-Cooled

// ECU Ignition & Electric Starting

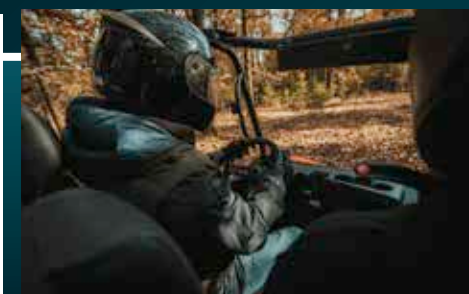

// Uses Octane 87 Unleaded Gasoline

// Engine Oil SAE 15W-40 (API SF or SG)

// 10,000ft Altitude Test & Verification Usage

From Left to Right:
GC1K Stage 1 - GC1K Stage 1 - GC1K Stage 2 - GC1K Stage 3

WEIGHT WHERE IT MATTERS

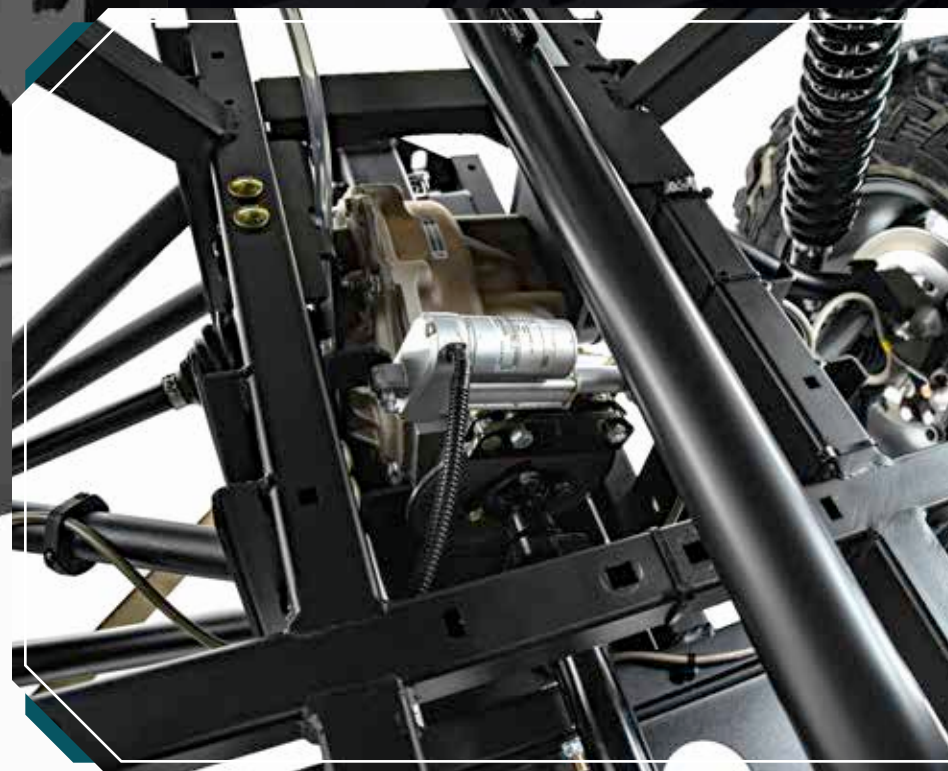

// Intimidator UTVs weigh more than our competition because Intimidator's weight is in the frame, suspension components, wheel bearings and plastics.

// Intimidator's front spindles are 2.5 times heavier than our competition. Not only are they stronger, but the distance from the hub to where the rack and pinion attaches to the steering arm is greater, allowing for more leverage and easier turning.

// Intimidator's a-arms are larger and have polyurethane bushings at the pivot points.

// Intimidator's frames are made of 1.5" square tubing with a bar that spans from the rocker panel to the back of the roll cage, behind the seat. This plus our new five year frame warranty offer peace of mind that the competition doesn't.

// Intimidator's heavier machines mean more fun for you. With a top-notch durable frame and components, you'll have to worry less about breakage and bending. This means no costly repairs or downtime, allowing you to stay on the trails longer, working harder, and enjoying your UTV more.

MORE STORAGE

The GC1K Truck offers two all-metal, heavy duty tool boxes to store your equipment, tools and supplies for the next job. The fully welded tool boxes offer 3.5ft³ of storage, aluminum hinges, and are sealed and waterproof.

MOBILE WORK BENCH

Out on the farm or job site and nowhere to set up your tools or gear? Just fold down one side of the bed for a large, mobile workstation at a convenient height. Check it out on the GC1K Truck models or the Versa Bed upgrade on the GC1K and Classic model.

ALL NEW VERSA BED

We've raised the bar once again, innovating something new in the UTV market that is both versatile and economic to add even more value to your Intimidator UTV! Our new Versa Bed is large enough to handle your cargo and tough enough to get the job done.

THE ULTIMATE ADDITION

The Versa Bed allows for the perfect combination of work and play. Keeping the speed and horsepower of a smaller model with the truck-style bed creates the dual action needed to tackle both tasks. Built with high-grade steel for the sides, thick gauged aluminum treadplate floor, and combined with industry-leading bed size, there's no task too easy or hard. The foldable sides convert to a flatbed allowing you to haul more cargo, use an on-the-go workbench, and load and unload the heavy stuff easily. Plus, an electric bed dump means there's no shortage of uses. This versatile upgrade allows for the easy completion of any hauling job which allows you to get to the fun stuff faster.

The Versa Bed is available for the Classic models (except the Electric) and the GC1K Classic models.

ACCESSORIES

Bad Dawg Accessories, the home of highest quality, American Made UTV and Side-by-Side accessories available to the off road industry. Almost all Bad Dawg products are manufactured in-house at our headquarters in Batesville, Arkansas.

INTIMIDATOR QUICK CONNECT PLASTIC TOP

Don't let the hot sun or unexpected showers slow you down! The polyethylene material used is durable, even in cold weather, and the roof won't fracture or warp. Check out Bad Dawg's Thermoplastic Hard Top for the Intimidator Classic Series and Truck Series.

ITEM # // **793-1102-00**

QUICK CONNECT CREW PLASTIC TOP

Bad Dawg's Thermoplastic Hard Top for the Intimidator Crew Series is an American Made product built with durable polyethylene material. Even in cold weather the roof won't fracture or warp.

ITEM # // **793-1103-00**

GC1K FRONT-FOLDING WINDSHIELD

Add a little versatility to your Intimidator GC1K with our folding windshield. This unit was engineered to stand the test. Keep the wind, rain, and dust from coming in the front of your GC1K. Made from 1/4" thick polycarbonate with a clear strip hinge that does not affect the driver's view.

ITEM # // **793-1107-00**

INTIMIDATOR FRONT FOLDING WINDSHIELD

This windshield offers the flexibility to choose between a full or half windshield in one by having a clear folding strip that connects the two pieces of windshield. The bottom gasket will contour the hood of your side by side to protect the body and seal the edges. Fits Classic and Truck series.

ITEM # // **793-1040-10**

GC1K STAGE 3 BUMPER

Upgrade your GC1K bumper to the Stage 3 bumper. This bumper adds additional brush guards to the front. These protect your headlights from limbs and brush while out riding the trail. All items for full assembly are included when purchased.

ITEM # // **793-1122-00**

1.75" BREAKAWAY MIRRORS

Designed specifically for UTVs it absorbs hard impacts from stray limbs or flying rocks. The all new Breakaway Mirror Set comes with a new style block between the clamp around the roll cage and the mirror. More adjustment and more visibility are guaranteed!

ITEM # // **693-3560-10**

REARVIEW MIRROR

This sleek new design offers dual purpose usage and features a ball socket joint for virtually unlimited viewing angles, shatter-proof tempered glass, ABS plastic housing, and a convex mirror for wide viewing range and stabilization. This product is designed and tested for demanding users!

ITEM # // **693-3553-00**

GC1K REAR BUMPER

This solid steel bumper is a must have to protect your UTV. The bumper is powder coated black, comes with all necessary hardware and instructions, and is a quick and easy install. Guaranteed to make your Intimidator look great and also add the extra protection to the rear of your machine!!

ITEM # // **793-1109-00**

GC1K ROCK SLIDERS

Add these rock sliders to help protect your machine from rocks, trees, and trail debris with these solid steel, round tubing nerf bars. Designed for those who aren't afraid to use their Intimidator.

ITEM # // **793-1129-00**

INTIMIDATOR SIDE STEP

Protect your machine with these solid steel, square tubing side steps that will give your ride a great look and that extra step for getting in and out of your Intimidator. The treadplate allows for extra grip when using the side step, preventing any slipping and sliding on the smooth metal bars.

ITEM # // **793-7146-00**

FOLDING WINDSHIELD LIGHT BAR COMBO

Add two of the most purchased UTV accessories in one package, a windshield and light bar. The folding windshield keeps the wind, rain, and dust from coming into the cab when riding. The 30" light bar features 12 LED lights and up to 13,000 lumens. Includes all mounting hardware to get you set up to run day or night.

ITEM # // **693-3414-00**

GC1K HOOD MOUNTED LIGHT BAR ASSEMBLY

If you're doing any night riding or just need more lighting, this is the light bar for you. The 14" hood mounted light features six 1,000 lumen LED lights providing sun, even after the sun goes down. Mounting hardware included to fit your GC1K.

ITEM # // **693-3415-00**

CV JOINT PROTECTORS

Running through the dirt, underbrush and mud can be rough on the underside of your UTV. Protect your two front outer-side half shaft CV joint with Bad Dawg's aluminum guards built to fit any Intimidator model!

ITEM # // **793-1011-00**

INTIMIDATOR HALF DOORS

Looking for half doors that not only have a great look, but are built to withstand some of the worse conditions? Made from solid American steel and powder coated, these are built to provide safety and stability when driving or riding in your UTV.

ITEM # // **793-3221-00**

INTIMIDATOR NERF BARS

Protect your machine with these solid steel, round tubing nerf bars that will give your ride not only a great look but added protection from rocks, trees, and trail debris. The Nerf Bars are black powder coated and come with all necessary hardware and instructions for installing.

ITEM # // **793-1008-00**

INTIMIDATOR REAR CARGO RACK

If you are looking to add extra space to your Intimidator UTV, here it is. The rear cargo rack is made to carry coolers, hunting supplies or deer feed. This all welded, solid steel tubing mounts directly on the back of any Classic, Truck or GC1K model!

ITEM # // **793-1016-00**

GROUNDHOG MAX

The GroundHog MAX truly makes preparing food plots a one-man job. Easy to use, half as wide as a normal plow, and weighing in at only 43lb, you'll be preparing your food plot in forward and reverse!

ITEM # // **088-9051-00**

BAD DAWG GRAB HANDLES

These grab handles are made to wrap around the roll cage and have velcro seams and straps to give either the driver or passenger extra points of contact while riding, making your ride more pleasant!

ITEM # // **693-3680-00**

INTIMIDATOR LEXAN BACK PANEL

Keep dust and debris from entering the rear of your machine with the Intimidator Rear Lexan Winshield. The 1/4" thick lexan glass allows you to still have visibility and not lose line of sight when installed. Built to stay strong and not fracture even on the roughest trails.

ITEM # // **793-1054-10**

GC1K REAR BUMPER WITH POD LIGHTS

The newest bumper in the Bad Dawg line for the GC1K, this bumper and pod light combo keep you visible in any weather or light and will protect your Intimidator from the rear!

ITEM # // **793-1102-00**

WARN VRX 45 WINCH

50' of lightweight, easy-to-handle 1/4" synthetic rope, hawse fairlead, and zinc-plated hook will you have you towing up to 4,500lb. Not only is it completely waterproof, but this semi-gloss powder-coated finish is smooth, reliable, and corrosion resistant!

ITEM # // **693-6055-00**

BUILDING THE ULTIMATE UTV

Since the inception of Intimidator UTV, we have strived to create the ultimate UTV experience with our line-up. We know that whether you're checking fence line, trail riding with the family, heading to bag the trophy buck, or just enjoying a quick ride, dependability and durability matter. That's why with the Intimidator UTVs you can do all that and so much more.

We start with the base of every model featuring American made steel, laser cut to perfection, and hand welded by men and women who give their best effort each time they strike an arc. Building on that is the ten featured items we offer standard, but are upgrades for the competition.

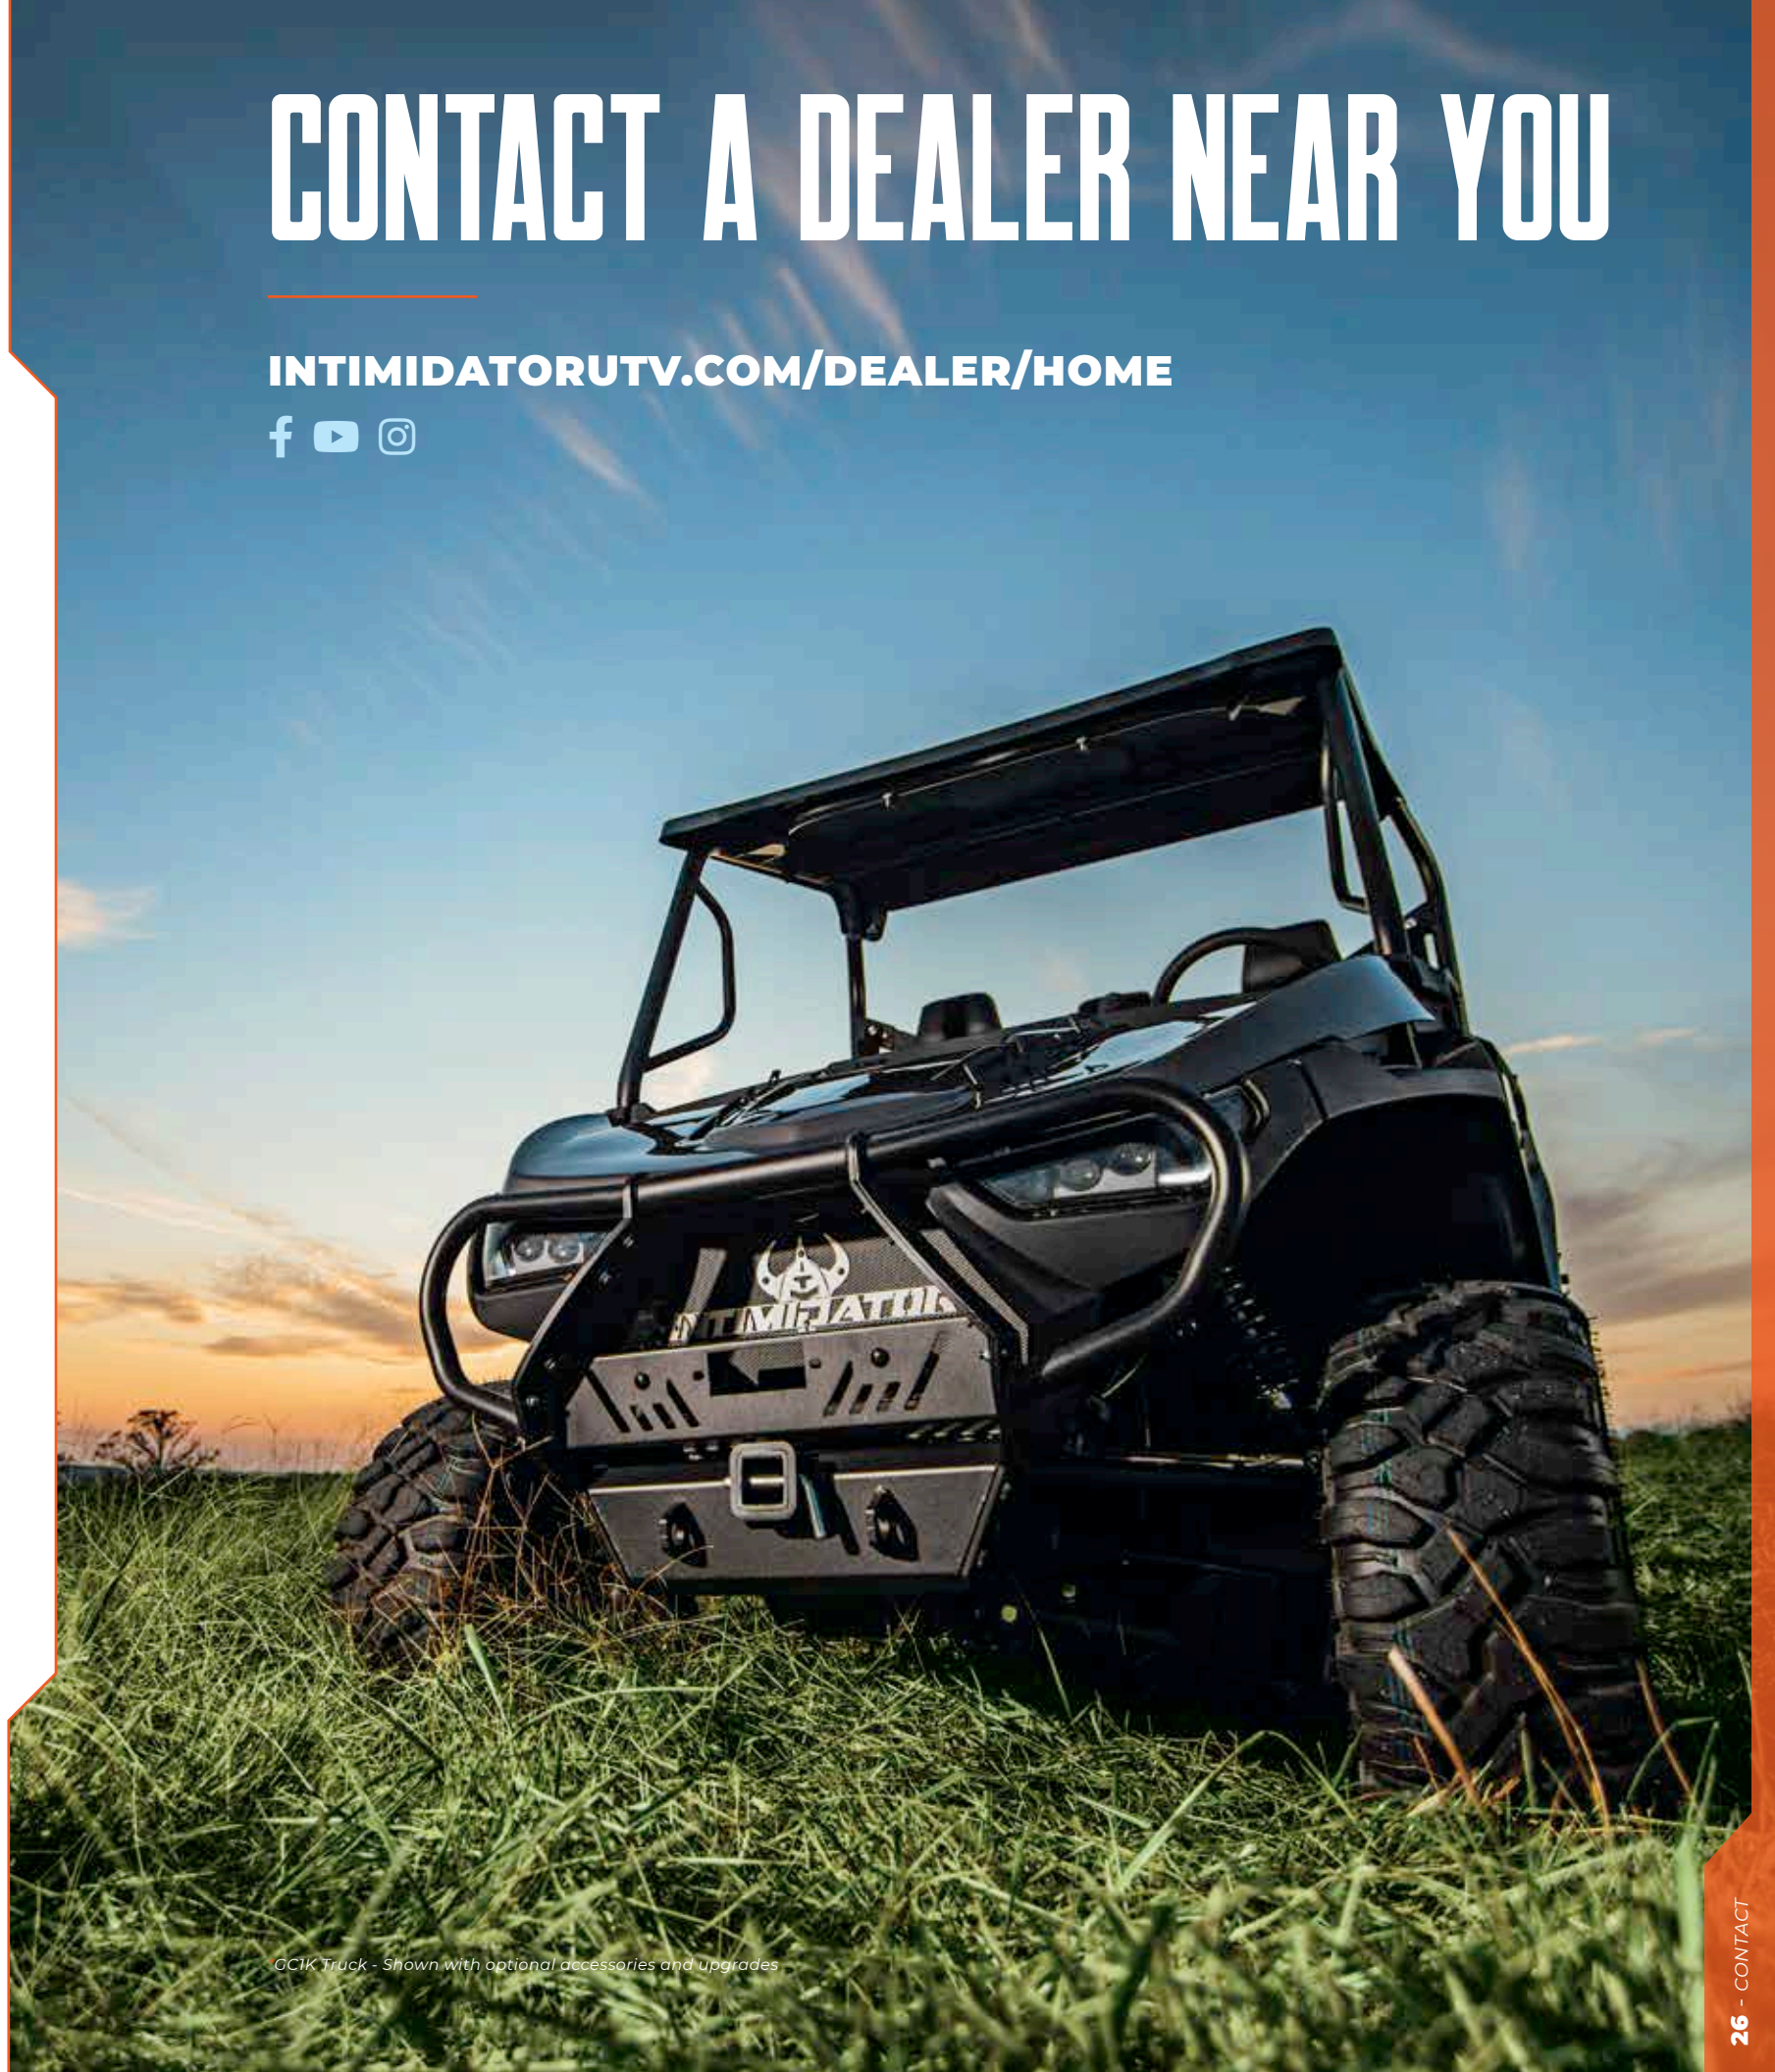

There's no shortage of design features that set apart Intimidators from the competition, but what else separates us from the competition? Our focus on family. Not only do we try to build the best UTVs, but we strive to build a family atmosphere within our company. Whether it's our faith-based culture or our dedication to making sure our employees are well cared for, employees shine through in our products.

We know that you have a lot of choices as a consumer buying a UTV. When you choose Intimidator, rest assured that not only the product, but the company and employees behind it, are passionate about building the **Ultimate UTV**.
